NICHOLALALA

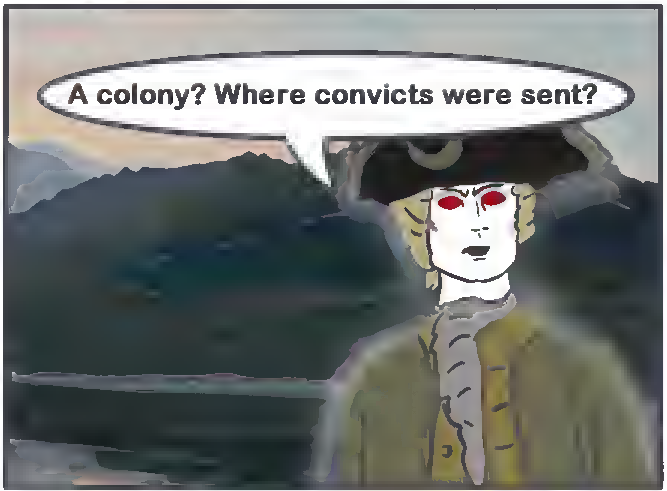
Hey, look here is the girl I told you about. She can see ghosts and speak your language.

You! Where are you from?

Australia

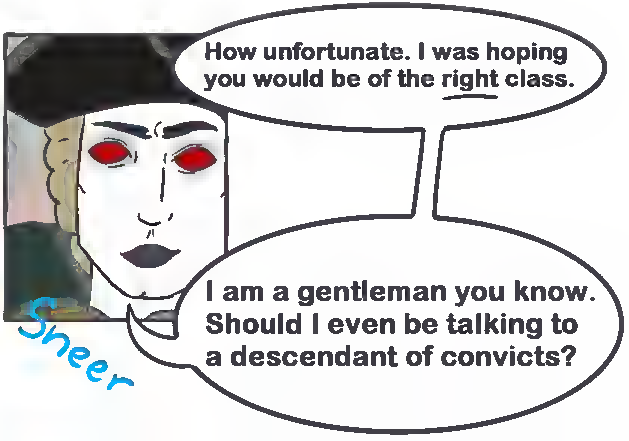
And where is that?

It was a British colony...



A colony? Where convicts were sent?

Well... yes, some of my ancestors were convicts.



How unfortunate. I was hoping you would be of the right class.
I am a gentleman you know. Should I even be talking to a descendant of convicts?
Sneer

Listen mate! None of that matters anymore. My ancestors were victims of an unjust system, not criminals! Australia is its own country now, not a penal colony!

Who are you to speak to one of your betters in this manner?! I have been wandering this barbarian land for hundreds of years

-It's not a barbarian land you racist British jerk!
It's the first time in hundreds of years you can talk to someone who can see you and understand your language and all you care about is if I'm from the same social class as you!

No one cares about 18th century social classes anymore! I don't want to talk to you ever again!

Let's go!

I don't understand much of your language. Did it go well?

To be continued
